ISO9001Certified Floor System

HUATONG FLOOR SYSTEM

ISO9001 CERTIFICATED FLOOR SYSTEM

HUATONG CREATES AN EFFICIENT, SAFE AND INTELLIGENT OFFICE

The modern office environment is constantly evolving, in order to compete in the global marketplace, where changes rate is increasingly high.

Buildings need to be safely adaptable with minimum disruption.

Access floor is flexible for the installation and reconfiguring of services to equipment and workstation. When changes are required above floor, the Huatong system can be moved to where it is needed. A workstation may be relocated with quick cable management changes without disruption to services.

Huatong Access Floor Systems have superior technical capability capacity and resources to manage major projects.

Based on the belief of manufacturing qualified products to serve the society, Huatong is aiming at creating a safer, more efficient and intelligent modern office environment.

INTRODUCTION

HUATONG XINLI FLOORING CO.,LTD.

is specialized in raised access floor systems. Over 20 years of innovation has made Huatong Access Floor the definitive source for bringing today's building into the future.

Huatong is the leading manufacturer of access floor in Asia. Huatong manufactures, sales, installs over 100 million square meters access floor every year. Huatong raised access floor is widely used in office, computer room, clean room and public spaces.

Across a wide range of sectors within the industry, Huatong's integrated approach to raised access floor system has made them first choice in meeting the specialist needs of wholesalers, architects, developers and owners.

Huatong Access Floor exported all over the world, especially to USA & Japan. On the other hand, Huatong is producing plant for many famous brand in the world.

自由式线槽地板 Free Slotted Panel

一种用于办公楼的架空线槽地板，包括若干块地板本体，其特征在于，它还包括若干块与各地板本体相间组拼的活动线槽地板，该活动线槽地板为中空布线地板。本实用新型在各地板本体间合理的配置可布线的活动线槽地板，集架空地板与线槽于一体，不仅可以降低安装好的地板的高度，提高楼层空间的使用率，而且进一步提高架空地板的功能，将各种线路通过线槽布置到达办公室的任何位置，布线更具灵活性，同时可以根据国家规范要求将强，弱电分开隔离，并用颜色或标记将其布线槽区分开，方便今后二次综合布线及检修维护。另外布线时只要打开的板线槽盖就可以布线及检修，省时、省力、省费用。
